

Hawthorn Pediatrics and Family Medicine introduce...

Children's Express Clinic

Hawthorn Medical Associates

Hawthorn Pediatrics and Family Medicine have established an express clinic for sick visits **by appointment only**. Call the office at 508-996-3991 to make an appointment. Children having symptoms including fever, sore throat, congestion, cough, diarrhea, etc. will use a separate entrance. This will help children and parents bypass the main entrance, elevator/stairs, registration, and waiting rooms.

- 1.** Parents will park in reserved spaces near the Express Clinic entrance and call 508-961-0796 when they arrive.
- 2.** Receptionists will complete the registration process over the telephone. Bring your insurance card with you.
- 3.** Children and parents will remain in their vehicles until they receive a call from the medical assistant, who will perform a brief intake over the telephone.
- 4.** Staff will meet the child/family at this new entrance and bring them directly to an exam room.

**Children will be seen by appointment only
from 9 a.m. until 5 p.m., Monday through Friday.
Pediatrics will also see patients on Saturday mornings by appointment.**
